

KWORCC

SAFETY VIDEO DVD LIBRARY

KWORCC offers training videos to our Member Counties at no cost. These videos are on a variety of subjects from back injury prevention to safe vehicle operations to hazardous materials safety to office safety. Each video deals with a specific hazard and gives useful and practical techniques that can be used to help prevent accidents.

To receive the maximum benefit from the videos, they should be viewed by as many applicable employees as possible. The reasonable length makes these videos perfect to fit into a 30 minute safety meeting, department head meeting or, more important, an employee crew meeting.

We request that you do not let your employees take the videos home to watch. If your county has problems with access to a video player/monitor, we suggest that you try the local public school, vo-tech center or library.

A maximum of two videos may be checked out for a two-week period.

To check out a video, phone or mail your request in to the KWORCC office at the phone number or address listed below.

Please return the video in a padded envelope to the attention of Nicole Jarboe-Paxson at the address listed. We suggest you insure the package for \$100.

A complete inventory of our safety videos is included on the following pages. In addition you will find an order form that can be copied, filled out and faxed or mailed to KWORCC.

G-106 SLIPS, TRIPS AND FALLS - Various types of slip/trip/fall accidents are depicted at surface mines, plants, on dredges and in offices. This video stresses the importance of workers thinking safety - and being alert, observant and cautious. Special emphasis is placed on proper climbing procedures. (9 minutes) **On DVD**

G-107 STAY OUT OF THE DANGER ZONE - This video describes several fatalities that occurred with the use of remote controlled continuous mining machines. You will also hear from a survivor of a continuous mining machine accident. (12 minutes) **On DVD**

G-108 STAY CALM AND STAY IN THE CAB! - In this video you'll hear how a bulldozer operator felt while he was buried in a surge pile cavity, and how his company's safety efforts, before and during the accident, contributed to his safe recovery. (12 minutes) **On DVD**

G-109 EQUIPMENT GUARDING - This a two disc inter-related series of video segments on interactive **DVD** that explore equipment guarding in depth. (150 minutes).

G-110 HIGHWALL HAZARDS - In this interactive **DVD** you will have the opportunity to learn about the dangers of working near highwalls.

G-112 CUSTOMER AND DELIVERY TRUCK DRIVERS HAZARD TRAINING - This **DVD** provides hazard information for truckers who frequent mine sites. Covered are safe work behaviors that will help truck drivers avoid the dangers of ground, electrical, transportation, slip and fall, and numerous other hazards that are common in and around mine sites. (10 minutes)

G-113 SLAM RISKS INSTRUCTIONAL GUID - INCLUDING "SLAM RISKS" - This interactive **DVD** is intended to be used as introductory materials for risk assessment training. The information in the DVD should help make you more aware of how risk assessment impacts the everyday tasks that are performed in the mining industry.

G-114 SLIPS TRIPS AND FALLS - TAKING THE RIGHT STEPS - DVD

G-116 LANDFILL SAFETY TRAINING - FIRE PREVENTION -DVD

G-118 THE BASICS OF TRANSFER STATION SAFETY DVD

G-119 FLAGGER SAFETY TRAINING - DVD (11 minutes)
